

Cut glass ship's decanter from HMS Collingwood

Sold

REF: 5754

Height: 28 cm (11")

Diameter: 18 cm (7.1")

Description

A heavy lead crystal cut glass ship's decanter from HMS Collingwood.

Ship's decanters, designed for maritime use, feature robust construction and practical designs for stability at sea. Often made of durable glass with heavy bases or weighted bottoms, they prevent tipping. Their elegant forms and functional features reflect the blend of practicality and style valued by sailors and travellers in the 19th century.
