

Italian single strand necklace of emerald beads and freshwater pearls

£675

Description

An Italian single strand necklace of emerald beads and freshwater pearls with an 18ct gold clasp and a gold, emerald, and ruby pendant.

Emeralds are vibrant green gemstones prized for their beauty and rarity. A variety of the mineral beryl, their rich colour comes from trace amounts of chromium and vanadium. Renowned for their captivating hue, emeralds symbolise renewal, love, and prosperity.

Historically, they were cherished by ancient civilisations like the Egyptians and Incas. These gems often contain inclusions, called "jardins," adding character and uniqueness. Found in Colombia, Zambia, and Brazil, emeralds remain one of the most sought-after gemstones world wide.
