

A victorian silver locket on an open link chain

Sold

Description

A quality Victorian silver locket on an open link chain, circa 1860.

Locketts, often worn as necklaces or brooches, were used to hold and display small personal items, such as portraits, hair, or lock of hair. Historically, they served as sentimental keepsakes, symbolising love, remembrance, and connection. Locketts allowed individuals to carry cherished memories close to their hearts.
