REF: 6206

Description

A very fine and generously proportioned graduated strand of blue opal beads, finished with an elegant platinum clasp set with three diamonds. The beads graduate smoothly from approximately 5 mm to 9 mm in diameter, creating a graceful progression of scale and a beautifully balanced silhouette around the neck.

Each opal bead displays its own subtle variation in tone, ranging through soft sky blue, aqua, and milky blue, with the gentle translucency and natural iridescence that make opal so captivating. Gathered together, the beads create a luminous, fluid effect: understated from a distance and richly nuanced on closer inspection. The carefully graduated arrangement lends the necklace both presence and ease of wear.

The platinum clasp provides a refined contrast to the cool blue opals. Set with three diamonds, it adds a discreet note of sparkle and makes the fastening an attractive feature in its own right. The combination of platinum, diamonds, and opal gives the necklace an air of quiet luxury, with a design that is equally suited to formal evening wear or as an elegant statement piece for daytime.

A sophisticated and highly wearable jewel, combining the organic beauty of opal with the enduring refinement of platinum and diamonds. An exceptional addition to a fine jewellery collection.
