Stirrup-shaped silver clock

William Frederick Williams

£2,650

REF: 7943

Height: 140 mm (5.51")

Width: 115 mm (4.53")

Depth: 58 mm (2.28")

Description

From the Victorian era, this antique silver-cased clock has a cylinder housing, fitted within a cast representation of a fitted horseshoe. This is attached by a swinging hinge to a base modelled as a stirrup.

The clock is in fine working order and provided with keys to wind and to change time. The original fascia is in good order but with slight discolouration, as shown.

This is a wonderful quality and quirky item.
